Experiment 8: Configuring User Management and Role-Based Access Control (RBAC) in Zoho Creator

Aim:

To configure user management and Role-Based Access Control (RBAC) in a Zoho Creator application by creating roles, assigning permissions, and verifying user access.

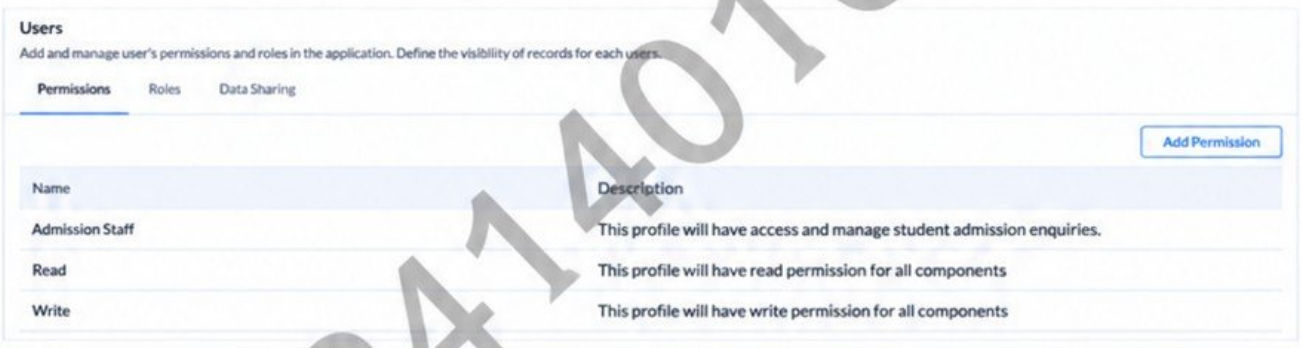

Procedure:

1. Open the Application

- Log in to Zoho Creator and open the Student Admission Management application.
- Navigate to the application settings.

2. Create User Permissions

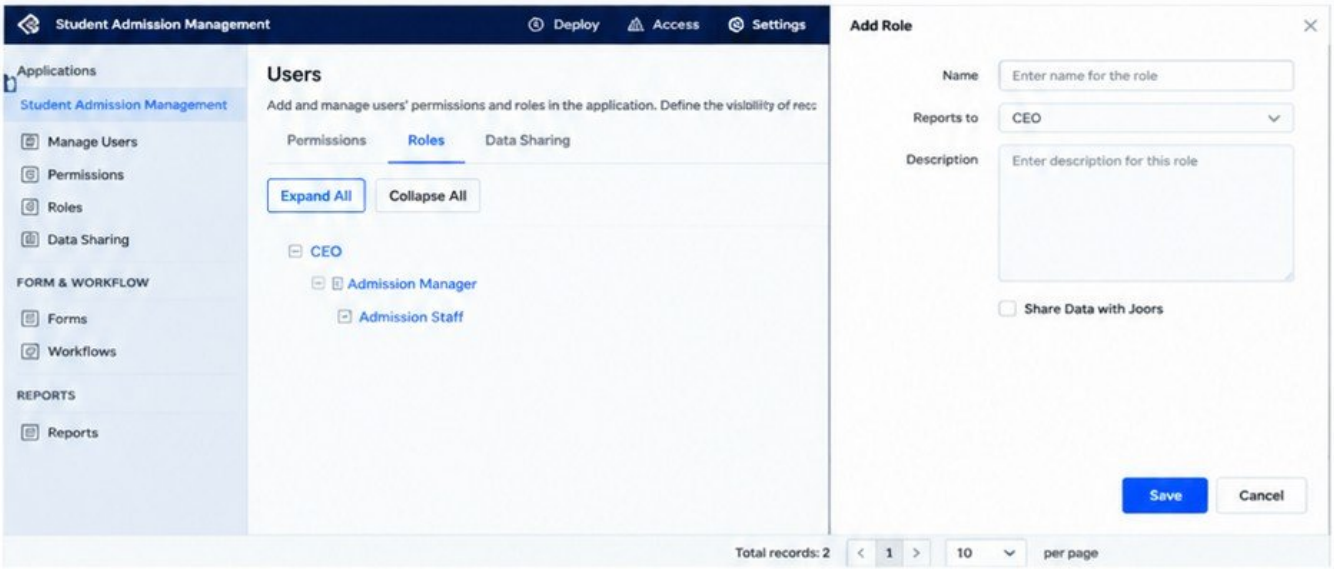

- Open Settings → User Permissions → Permissions.
- Create an Admission Staff permission and configure access to the admission form and report.

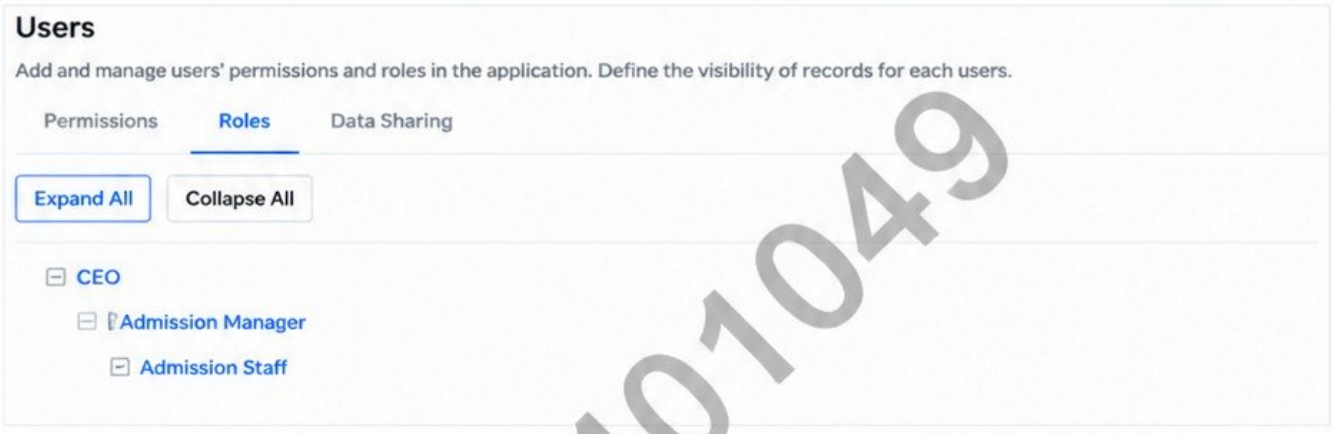

24140104 9

3. Configure Role Management

- Navigate to the Roles section.
- Create the Admission Manager and Admission Staff roles.
- Configure the role hierarchy, if available.

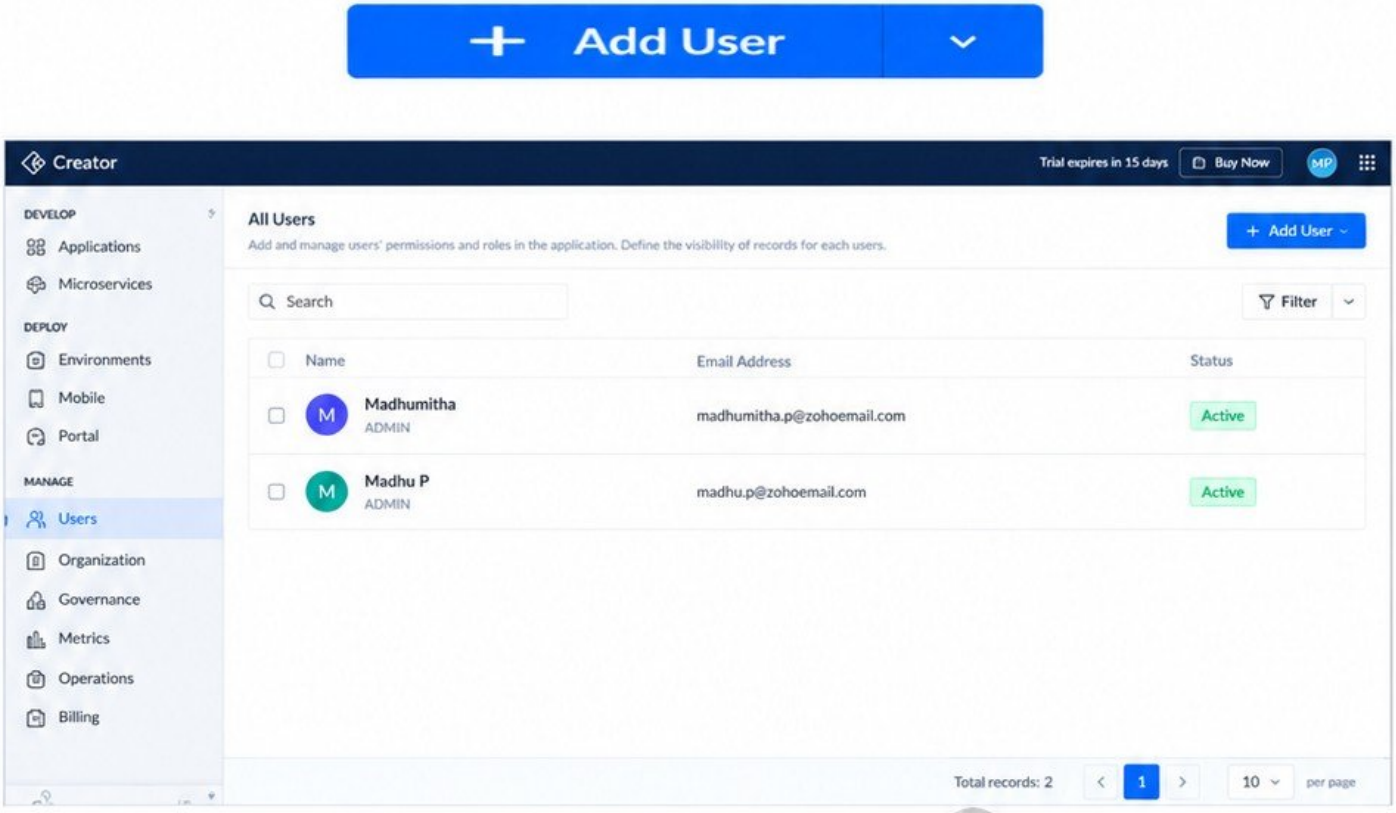

241401049

4. Add and Verify Users

- Navigate to Manage → Users and add a test user.
- Assign the Admission Staff role and its corresponding permission.
- Enable the notification email option and verify the invitation through email.

5. Configure Access Control

- Set the required access, view, and edit permissions for admission enquiries.
- Disable delete permission for Admission Staff.
- Save the permission settings.

6. Test Role-Based Access

- Open the application using the invited user ' s account.
- Test access to the Admission Enquiry Form and Admission Enquiry Report.
- Verify that the available actions follow the assigned permissions.
